Response to Election/Restriction

1. Applicant's election without traverse of Group II, claims 37-59, and added claim 60 in Paper No. 9 is acknowledged. Non-elected claims 1-36 are withdrawn from further consideration.

Specification

2. The disclosure is objected to because of the following informalities: on page 3 lines 18-21 there are blank spaces, which appears to be missing some information.

Appropriate correction is required.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 52-60 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 52-60 of copending Application No. 09/782804. Although the conflicting claims are not identical, they are not

patentably distinct from each other because method of using mizoribine and methylprednisolone to inhibit restenosis in a blood vessel following recanalization of the blood vessel.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 60 and 38-51 are rejected under 35 U.S.C. 102(b) as being anticipated by Domb et al. (U.S. Patent 5,512,055).

Domb et al. disclose a stent with polymeric coatings with methylprednisolone as is claimed (Abstract, column 5 lines 34-46 and column 6 lines 37-59).

7. Claims 37, 52-51 and 57-59 are rejected under 35 U.S.C. 102(b) as being anticipated by Gregory et al. (U.S. Patent).

Gregory et al. disclose method for treating hyperproliferation vascular disease by administering MPA and Mizoribine as is claimed (Abstract, column 3 lines 44-52 and column 24-31).

Allowable Subject Matter

8. Claims 55 and 56 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
